CAMPAIGNS STORIES ABOUT US CONTACT

Factory farms can't be fixed. It's time for a ban.

Regulation hasn't worked because our corporate-run food system is broken.

[LEARN MORE](#)

A photograph showing a large number of cows in a barn, standing in rows and eating from troughs. The image serves as the background for the main content area.

Our Work

Working in local communities

Advocating for fair policies

Taking legal actions

Investigating the issues

Help us fix our broken systems and stand up against corporate control.
